Art Unit: 1621

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 13(part), 14, 20(part)-21(part), drawn to compositions comprising 2:1 R:S modafinil, their synthesis and method of treatment using them.

Group II, claim(s) 4-6, 13(part), 15, 20(part)-21(part), 22, drawn to R-(-)-modafinil Form III.

Group III, claim(s) 7-9, 13(part), 17, 20(part)-21(part), 28-30, drawn to R-(-)-modafinil Form V, preparation and method of use.

Group IV, claim(s) 10-12, 13(part), 16, 20(part)-21(part), 27, drawn to R-((-)-modafinil Form IV, preparation and use.

Group V, claim(s) 23(part)-26(part), drawn to chloroform solvate.

Group VI, claim(s) 23(part)-26(part), drawn to chlorobenzene solvate.

Group VII, claim(s) 23(part)-26(part), drawn to acetic acid solvate.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The only linking concept among the different independent claims are crystalline forms of modafinil and their enantiomers, that are already state of the art(see for example EP 233106 or WO 02/10125) together with their use for the treatment of narcolepsy. This feature is therefore not a special technical feature in the sense of Rule 44EPC..

3. In view of the complex nature of the restriction requirement, a written restriction requirement has been made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

Art Unit: 1621

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHAILENDRA -. KUMAR whose telephone number is (571)272-0640. The examiner can normally be reached on Mon-Thur 8:00-5:30, Alt Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel Sullivan can be reached on (571)272-0779. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
